

The background of the cover is a dark green field. In the center, a stylized globe is depicted with a stippled texture, showing the outlines of continents. Three tall, lattice-structured radio towers are positioned around the globe. Thin lines representing radio waves or signal paths connect the towers to the globe. At the top of the cover, three horizontal banners are draped across the scene. The top banner is white with red text, the middle one is grey with red text, and the bottom one is white with red text. The banners appear to be part of a continuous strip that loops around the top of the globe.

I KOMMISSION HOS BERLINGSKE FØRLAG

Trykt i Det Berlingske Bogtrykkeri

UDDRAG AF BREVE FRA RADIOFONI-ORGANISATIONER, RADIOSAMMENSLUTNINGER O. LIGN. TIL »WORLD RADIO HANDBOOK FOR LISTENERS«

United Nations (UNO) Lake Success:

»Vi finder Verdens-Radiohaandbogen værdifuld paa mange Maader og ønsker den den største Succes i Fremtiden.«

UNESCO Organisation des Nations Unies pour l'Education, la Science et la Culture:

»Vi er overordentlig interesserede i Verdens Radio Haandbogen og ønsker at gratulere Dem med at have frembragt et Værk, som vi er overbeviste om vil blive af virkelig Værdi for Lyttere over hele Verden.«

The International Broadcasting Organisation, Bruxelles:

»Denne smukke Bog vil tjene som et Værktøj for enhver, der er interesseret i Radiofoni, og en saadan Bog har været savnet længe. Vi maa gratulere Dem med, at det er lykkedes for Dem at opfylde et Ønske fra alle Mennesker, der er interesseret i international Radiofoni.

Formanden for den danske Unesco Nationalkommission, fhv. Undervisningsminister M. Hartling:

»Efter Redaktør Lund Johansens Anmodning skal jeg udtale, at World Radio Handbook efter min Mening allerede i sin foreliggende Form maa anses for et meget værdifuldt Hjælpemiddel for alle, som arbejder i og med Radio. Med de stadige Ændringer og den voksende Udvikling i de forskellige Lande vil en Videreførelse af Haandbogen og en Udbygning og a jour-Føring af de i den indeholdte værdifulde Oplysninger være meget ønskelig og jeg kan paa det bedste anbefale, at UNESCO yder sin Støtte til dette Arbejde, idet jeg anser et Samarbejde mellem UNESCO's Radiosektion og Haandbogens Udgiver for højst rimeligt og anbefalelsesværdigt.«

Australien. Radio Australia:

»Vi lykønsker Dem med de meget værdifulde Oplysninger, der findes i Deres Bog, og vi vil gøre vort til, at den bliver kendt i Australien.«

Belgien. Institut Radiodiffusion National Belge:

»Vi er meget tilfredse med Deres glimrende Bog og vore forskellige Afdelinger ønsker at bestille Eksemplarer til eget Brug.«

Canada. Canadian Broadcasting Corporation:

»Vi har modtaget Verdens Radio Haandbogen og vi forsikrer Dem, at vi er overordentlig tilfredse med den. Den repræsenterer et værdifuldt Bidrag til Fremme af international Forstaaelse. Maa jeg gratulere Dem fra mig selv og fra det kanadiske Radioselskab.«

England. British Broadcasting Corporation:

»Vi er overordentlig interesserede i Deres Verdens-Radiohaandbog, som indeholder Oplysninger af stor Værdi for os. Den vil blive en værdifuld Hjælp til Verdens Radiolytning.«

Frankrig. Direktionen for »Radiodiffusion et Television Francaise«, Paris:

»Deres Haandbog er efter vor Mening meget praktisk i sin Tilrettelæggelse og meget værdifuld.«

Holland. Direktionen for Radio Nederland Wereldomroep:

»Deres Verdens Radiohaandbog repræsenterer et meget interessant Arbejde, som vil være af stor Værdi for vore forskellige Afdelinger.«

Italien. Direktionen for Radio Italian:

»Vi har med den største Interesse studeret Deres Verdens-Radiohaandbog og værdsætter i høj Grad dens Indhold.«

Polen. Direktionen for Polskie Radio:

»Vi har den Glæde at meddele Dem, at vore forskellige Afdelinger finder Deres Verdens-Radiohaandbog overordentlig værdifuld. — Vi har intet at tilføje eller kritisere med Hensyn til dens Indhold. — Den er af stor Værdi for os.«

Schweiz. Direktøren for Generale Société Suisse de Radiodiffusion Berne:

»Jeg har gennemset Deres Haandbog med stor Interesse. Dens Indhold synes udmærket, og jeg har ingen Fejl fundet.«

Tyskland. Chefen for British Forces Network:

»Deres Haandbog er bleven modtaget med stor Begejstring af vor tekniske Stab og mange ønsker at erhverve sig et Eksempplar. Det er en udmærket og meget værdifuld Publikation.«

U. S. A. Editor of Radio News:

»Jeg føler mig overbevist om, at Deres Verdens-Radiohaandbog vil blive meget populær i U. S. A., og jeg vil paa det hjerteligste anbefale den til enhver i udenlandsk Radiofoni interesseret Lytter. — Jeg sender mine bedste Ønsker for den fremtidige Udvikling af Deres fine Publikation.«

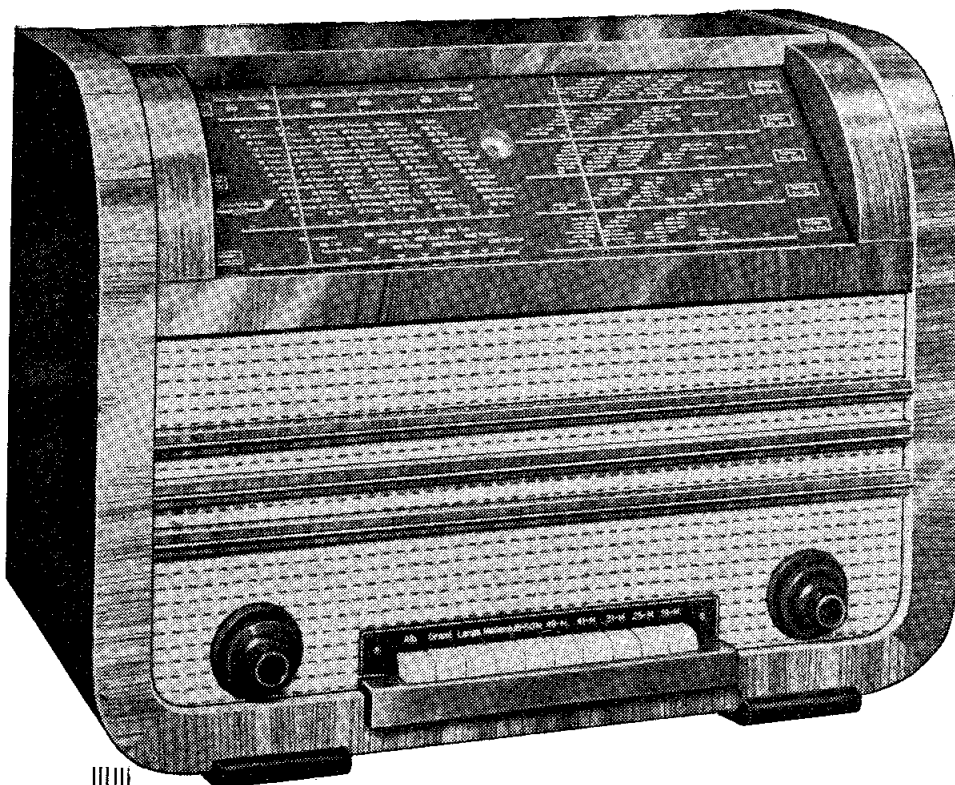

Østrig. Direktøren for Østrigs Radiofoni:

»Verdens-Radiohaandbogens Indhold er ikke alene for mig, men efter min Mening for alle, der beskæftiger sig med Radiofoni, af allerstørste Interesse. — Det er den første Haandbog, som giver en samlet Oversigt over Radiofoniudviklingen i Verden.

FORORD

Den første Udgave af »Verdens Radiohaandbogen« har mødt stor Interesse i de fleste Lande Verden over saavel hos Radiofoniselskaber og DX-Lytterklubber som hos de enkelte Lyttere. — Talrige Breve giver Udtryk herfor, og som Exempler herpaa findes paa Side 2 aftrykt Uddrag af enkelte af disse mange Breve. — Der er saaledes i vide Kredse Forstaaelse af og Interesse for Bogens egentlige Formaal: Fremme af Verdens-Radiofonien ved bl. a. at yde et Bidrag til Skabelse af Kontakt mellem Radiofoniselskaberne indbyrdes og ved at give interesserede Lyttere et praktisk Middel i Hænde til Aflytning af de forskellige Radiofonistationers Udsendelser. — Det er lykkedes at skabe en værdifuld Kontakt med de fleste Radiofoniselskaber; en betydelig Fremgang kan noteres fra den første Udgave til den foreliggende, hvilket Bogens Indhold ogsaa vil give Udtryk for. Forhaabentlig vil det lykkes med den næste Udgave, der udkommer i November 1948, at skabe den fuldkomne Verdens Radio Haandbog. Men hertil kræves et forstaaende Samarbejde med alle Radiofoniselskaber og Lytter-Sammenslutninger Verden over. — Derfor beder jeg alle Radiofoniselskaber om at holde Verdens Radiohaandbogens Redaktion a jour med deres Udsendelser, Frekvenser og Sendetider ved Tilsendelse af saadanne Oplysninger, som falder indenfor Bogens Rammer, samt at meddele Redaktionen evt. Ønsker og Kritik m. H. t. fremtidige Udgavers Indhold. — Ogsaa med individuelle Købere af Verdens Radiohaandbogen og DX-Sammenslutninger i alle Lande søger Redaktionen Kontakt og beder om ogsaa herfra at modtage evt. Kritik og Ønsker. — Alle, der er interesserede i Bogens Formaal, beder vi om at være behjælpelig med at udbrede Kendskabet til dens Existens, hvorved de yder et værdifuldt Bidrag til Fremme af Verdens-Radiofonien og tjener ved Udførelsen af dette Pionerarbejde: Verdensfredens Interesser.

O. Lund Johansen.

Superphone 10 RØRS KÆMPESUPER

TYPE 710/48

PRIS KR. 875
EXCL. RØRSKAT

en Luksussuper, hvor intet er sparet for at give en større Følsomhed, en bedre Gengivelse og et fornemt Udseende. De 10 Tangenter betjener Afbryder, Grammofontilslutning, Langbølge: 1000—2000 m, Mellembølge: 200—580 m, Kortbølge: 85—200 m, 30—85 m, 13—31 m, samt 3 baandsprede Omraader: 19 m, 25 m og 31 m Baandet, altsammen tydeligt afmærket paa den store »guldtrykte« Dobbelt skala. Modtageren er forsynet med Push-Pull Udgang, hvilket giver en overvældende Tonefylde og Klangskønhed.

En Oversigt i Frekvensorden over Kortbølge Stationer i alle Lande med Angivelse af Frekvenser, Bølgelængder, Kendingsbogstaver og Styrke	89

Kanadas Stemme

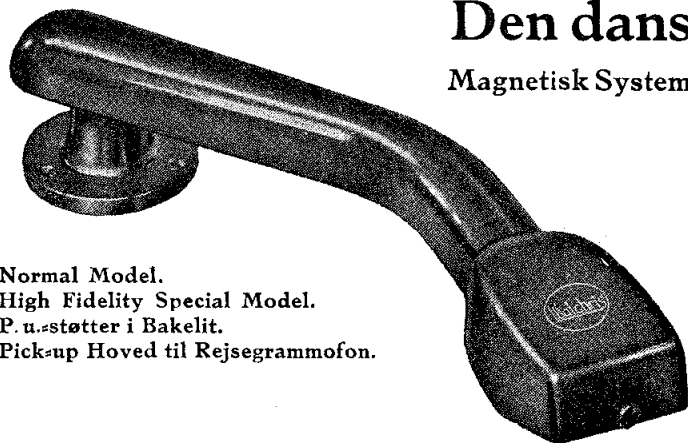

Canada taler til Europa hver Dag pr. Kortbølge paa Dansk, Norsk, Svensk, Engelsk, Fransk, Czekisk, Hollandsk og Tysk. — Andre Programmer udsendes regelmæssigt paa Engelsk til det karibiske Omraade og til det sydvestlige Pacific, samt paa Spansk og Portugisisk til Central- og Syd-Amerika.

Alle disse Programmer udsendes fra Montreal-Studierne af »The International Service of the Canadian Broadcasting Corporation og udstraales fra CBC's 50 Kilowatt Sendere i Sackville, der er beliggende i den østlige Del af Provinsen New Brunswick.

Lyttere i alle Lande indbydes til at lytte til »The Voice of Canada« for at høre om Begivenheder og Livet i Canada. — De bedes skrive efter Programdetaller til

INDLEDNING

De i det følgende Afsnit givne praktiske Oplysninger om hvert enkelt Lands Radiofoni omfatter:

Tidsforskellen mellem det paagældende Lands normale Tid (Normal Clock Time) sammenlignet med Greenwich Mean Time (G. M. T.) og med Angivelse af om det paagældende Land har indført Sommertid. For Albanien er saaledes eksempelvis anført: »Normal Clock Time« — G. M. T. plus 1 hour, d. v. s. at den lokale Tid henholdsvis Sommertiden i Albanien er Greenwich Mean Time plus 1 Time henh. 2 Timer. — Alle Tidsangivelser i Oversigterne er Greenwich Mean Time (G. M. T.).

Adressen paa det paagældende Radiofoniselskab.

Navne og Titler paa de ledende Personer (Leading Personalities) indenfor hvert Selskab.

Stationer, som tilhører det paagældende Selskab, med Angivelse af Kendingsbogstaver (call-signs) for Kortbølgestationer, Frekvenser (frequencies) og de hertil svarende Bølgelængder (wavelengths) samt Styrken udtrykt i Kilowatt. For Europa, Nordafrika og Nære Orient er anført alle Radiofonistationer for alle Bølgelængdeomraaderne og for de øvrige Lande alle Kortbølge-Radiofonistationer.

Kortbølgestationer har hver et Identitetsmærke bestaaende af 3—5 Bogstaver eller Kombination af Bogstaver og Tal, hvorefter det første eller de to første angiver Nationaliteten. Nogle Kortbølgestationer, f. Eks. de amerikanske, anvender Kendingsbogstaverne ved Annonceringen. *Lang- og Mellembølge-Stationerne* er delt i

Hovedstationer, der er saa kraftige, at de som Regel er hørelige i hele det paagældende Lands Omraade, og hvorfra de fleste Udsendelser foregaar, *Regional-Stationer*, der er hørelige indenfor et vist Omraade indenfor det paagældende Land, og hvis Udsendelser dels bestaar af Retransmission af Hovedstationens Programmer og dels af egne Programmer og endelig *Relais-Stationer* (Relay-stations), der udelukkende retransmitterer Hovedstationens Programmer.

De fleste *Kortbølgestationer* anvender Retningsantennener, d. v. s. Udsendelserne er rettet mod bestemte Landomraader, og man taler derfor om Udsendelsernes forskellige Service: Europa-Udsendelser (European Service), Nære Orient (Near East), Mellemste Østen (East), Fjerne Østen (Far East), Australien etc. (Pacific), spansk-talende Sydamerika (Latin-America), Vestindien (Caribbean) etc. — Det i Udsendelserne anvendte Sprog og de anvendte Frekvenser skifter, eftersom Udsendelserne er bestemt for det ene eller andet Landomraade. —

Daglige Programmer. (Daily Programmes). Der bringes herunder Oplysning om den samlede Sendetid i Greenwich Mean Time for de enkelte Frekvenser, der anvendes i Udsendelsestiden. For de fleste Stationers Vedkommende endvidere en Oversigt over Dagens faste Udsendelser. Eksempelvis kan nævnes: News (Nyheder), Topical (Aktuelt), Newsreel (Aktuel Reportage), Programme Preview (Oversigt over Dagens Program), Request Concert (Ønskeprogram), Play or Theatre (Hørespil), Religious Service (Gudstjeneste), Exercise (Gymnastik), Chamber Music (Kammermusik), Symphony Concert, For the Youth (Ungdomsudsendelse), Children's Hour (Børnetime), For the Wife (Udsendelse for Husbønder), For the Farmers (Landbrugsforedrag), Talk (Foredrag), Record (Grammofonplader) etc. —

Særlige Programmer (Highlights of Programmes). Herunder er anført de særlig interessante og værdifulde Udsendelser, der falder paa bestemte Ugedage, som f. Eks. Symfonikoncerter, Operaopførelser eller -transmissioner, Operetter, Kabaret, Hørespil og lign.

Hvorledes indstilles til en Kortbølgestation?

Det kræver Øvelse at indstille Modtageren rigtigt til en Kortbølgestation. En Bevægelse paa blot et Haars Bredde kan give den rigtige Indstilling. Naar en Kortbølgestation er fundet,

maa der finindstilles ved nænsomt at dreje Skala-Knappen frem og tilbage, samtidig med at Volumen-Kontrollen skrues netop saa højt op, at den paagældende Station kan identificeres. Drejes Indstillingsknappen for hurtigt, kan en svag Station let overhøres.

Modtageforholdene paa korte Bølger kan være meget lunefulde. Man lytter til en fjerntliggende Station, efter kort Tids Forløb svinder den bort (»fader«) og kommer ikke lige straks igen.

Programmerne udsendes oftest paa flere Bølgelængder samtidig. Dersom De har indstillet Modtageren til den Station, De ønsker at aflytte, og Aflytningen ikke er tilfredsstillende, saa forsøg de andre Bølgelængder, som Stationen anvender i det paagældende Tidsrum.

Frekvens og Bølgelængde.

Frekvens og Bølgelængde angives i henh. Kilocycles per Sekund (kc/s) og Meter (m). Kilocycles pr. Sekund vil sige 1000 Svingninger per Sekund, — Frekvens- og Bølgelængde-omraaderne er opdelt i følgende Grupper:

Lange Bølger med Frekvenser henh. Bølgelængder fra 133 kc/s (1961 m) til 500 kc/s (600 m).

Mellembølge med Frekvenser fra 500 kc/s (600 m) til 3000 kc/s (100 m).

Korte Bølger med Frekvenser fra 3000 kc/s (100 m) til 30000 kc/s (10 m).

Megacycles, *Kilocycles* og *Meter* er tre forskellige Betegnelser for Bølgelængder. — 1 Megacycle er lig 1000 Kilocycles, Megacycles udtrykkes i Kilocycles ved at multiplicere Megacycles med 1000. Kilocycles udtrykkes i Meter ved at dividere Kilocycles op i 300000. Meter udtrykkes i Kilocycles ved at dividere Meter op i 300000.

De korte Bølgers Omraade er delt i følgende Bølgeomraader:

49 m. b., 41 m. b., 31 m. b., 25 m. b., 19 m. b., 16 m. b., 13 m. b., 11 m. b.

Mange Kortbølgestationer ligger udenfor disse Baand. 60 og 80 Meter Baandene anvendes til lokal Radiofoni, f. Eks. Central-Afrika og Syd- og Mellemamerika. For at opnaa den bedst mulige Modtagning af en Kortbølgestations Udsendelser forandrer Stationen sin Frekvens efter Døgnets og Aarets Tider.

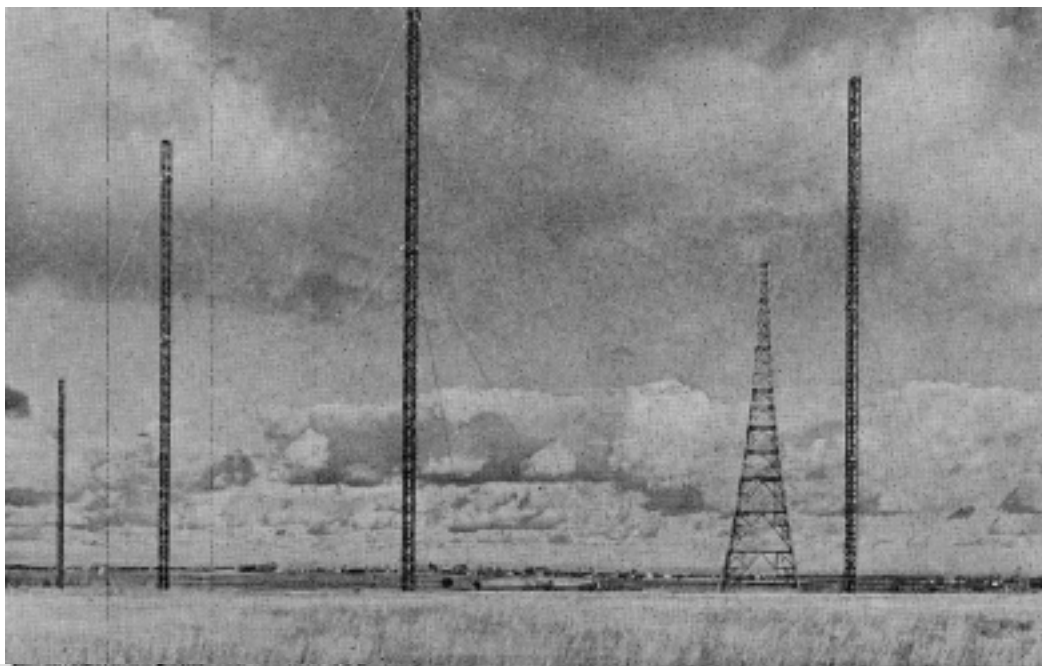

QSL Kort.

Som angivet under de forskellige Landes Radiofonioversigter er mange Radiofonistationer interesserede i at modtage Rapporter om deres Udsendelser fra Lytterne. Stationerne kvitterer i de fleste Tilfælde for Rapporter ved at sende Lytteren et QSL-Kort. For de fleste Stationers Vedkommende er det angivet om Rapporter besvares med QSL-Kort eller Brev og om Svarporto ønskes; i saa Tilfælde vedlægges en international Svarkupon. — Saadanne Rapporter kan i de fleste Tilfælde affattes paa Engelsk, men til de sydamerikanske og centralamerikanske Stationer helst paa Spansk. Rapporten bør indeholde Oplysning om Bølgelængden, Datoen, Tidspunktet, Programmet, der er aflyttet, helst med lidt Detailoplysninger, Fading (QSB), Interferens (QRM), Modtagertype og Antenne samt Forstaaelighed og Styrke, hvortil benyttes følgende Betegnelser:

Forstaaelighed:	Styrke:	Forstyrrelser:
QRK1 — ikke forstaaelig	QSA1 — meget var	QRM — Forstyrrelser fra andre
QRK2 — delvis forstaaelig	skelig at høre	Stationer
QRK3 — med Besvær forstaaelig	QSA2 — svag	QRN — Atmosfæriske For-
QRK4 — helt forstaaelig	QSA3 — rigtig god	styrrelser
QRK5 — uden Besvær forstaaelig	QSA4 — god	QSB — Variationer i Styrken
	QSA5 — meget god	(»Fading«)

Til Angivelse af Tidspunktet anvendes *Greenwich Mean Time (G. M. T.)*. Under de forskellige Landes Radiofonioversigter findes angivet den fuldstændige Adresse for de enkelte Stationer.

Antenneanlægget til den nye danske Kortbølgesender i Herstedvester.

Finland: Finsk Program-Direktør Fil. mag. Jussi Koskiluoma.
Czechoslovakiet: "Sunday Evening Social", en af de mest populære czekiske Udsendelser.

BBC European Service: General Sir Ian Jacob, Direktør for BBC's Overseas Service, med Medlemmer af den skandinaviske Radio-Sektion. Fra venstre til højre: General Jacob, Bent Nordhjem (Dansk Program-Assistent), Palle Sachs (Dansk Program-Assistent), Denis Winther, Direktør for den skandinaviske Radiotjeneste, Roy Duffell (Dansk Programchef).

Red Skelton, berømt amerikansk Kunstner, der ofte høres over AFN og Blue Danube Networks Station.

L'UNION INTERNATIONALE DE RADIODIFFUSION (U. I. R.). SIÈGE SOCIAL

Address: 37 Quai Wilson Geneve.

Leading Personalities: Board of Directors: President G. Conus (Switzerland). Vice-presidents: J. Bomholt (Denmark), L. O'Broin (Eire), G. Spataro (Italy), N. V. Ilkin (Turkey). — General Secretary: R. de Reding (Switzerland).

Membres actifs: Denmark, Norway, Eire, Portugal, Swiss, Spain, Sweden and Turkey.

Un membre "a titre special": La Service de radio-diffusion du Vatican, Cité du Vatican.

"Membres associés": South African Broadcasting Corporation, Johannesburg — Direction générale des Postes et des Telegraphes Buenos Aires Argentina — Amalgamated Wireless (Australasia). Ltd. Sydney — Burma — The Central Broadcasting Administration Nanking — The National Broadcasting Company Newyork — Iran. —

INTERNATIONAL BROADCASTING ORGANIZATION (I. B. O.).

Address: 32 Avenue Albert Lancaster, Brussels.

Leading Personalities: Board of Directors: Chairman: Shukry Abaza Bey (Egyptian Broadcasting). Vice-Chairman: W. Billig (Polskie Radio) and J. Kuypers (I. N. R., Belgium). Delegate to the Administrative Office: B. Lastovicka (Czechoslovensky Rozhlas). Directors: M. Arbousov (Radio Committee U. S. S. R.), Professor G. Gerbrandy (N. R. U. Netherlands). J. Meyer (Radiodiffusion française). — Deputy Directors: J. B. Broekz (Netherlands), L. Daumard (France), Th. Fleischman (Belgium), J. Panski (Poland), Dr. K. Remes (Czechoslovakia), A. Shchetinin (U. S. S. R.).

Members of I. B. O.: Albania, Bulgaria, Czechoslovakia, Hungaria, Italy, Poland, Yugoslavia, U.S.S.R., Bielorussie, Finland, Esthonia, Latvia, Lithuania, Moldavia, Ukraina, Egypt, Syria.

Message to Listeners: "We are very interested in any information received from abroad about our medium and short-wave transmissions. A confirmation card and all requested information are sent to every foreign listener reporting on our transmissions. For the moment, our short-wave transmissions are kept within certain limits, owing to damage and destruction caused to our plant by the war. In our reconstruction plan, priority has been given to medium-wave stations, but, nevertheless, we hope to be able, within a short time, to improve also our short-wave transmissions."

LUXEMBURG

NEAR AND MIDDLE EAST

The Near East Arabic Broadcasting St.

This station will after the termination of the Mandate probably be removed to Cyprus, where it will continue to broadcast.

PALESTINE BROADCASTING SERVICE

This station will cease on the termination of the Mandate. Its future cannot be forecast and depends on who will be able to grab the transmitters first — the Jews or Arabs. — The transmitter sit is located in Ramallah, about 10 km outside Jerusalem — a purely Arab Area. At the moment both Jews and Arabs have their own underground station transmitting on the shortwave band.

SYRIA

Normal Clock Time — G. M. T. plus 2 hours.
No Summer Time.

Address: Posts, Telegraphs and Telephones Department, Damascus.

Radio Australia is to commence German language Programmes in a near future which will be heard in the transmission to Europe from 20.00-21.45.

Announcement: "This is Radio Australia calling". "You are tuned to the Overseas Service from Australia". "This is Radio Australia transmitting in the Overseas Service".

Identification: Musical box rendition of "Waltzing Matilda" is played for five minutes preceeding transmissions. Transmissions commence with Clock Chimes and the laugh of the Kookaburra, commonly known in Australia as the "Laughing Jackass". Gongs are used as programme cues only. "Waltzing Matilda" in march tempo preceeds and concludes all News Bulletins. *Indonesian* transmissions open with "Waltzing Matilda" played on piano-accordion with instrumental ensemble. *Siamese transmissions* open with "The Peoples Song" and conclude with Siamese National Anthem. *French Transmissions* open with "Marche Lorraine" and conclude with "La Marseillaise"

Message to Listeners: "Radio Australia welcomes letters from overseas listeners, likes to know the programme that interests you, also any suggestions or comments you may care to make."

The Voice of the United States of America is the radio medium employed to promote the better understanding of the United States among the peoples of the world and to strengthen cooperative international relations. 36 shortwave transmitters in the United States, ranging from 10.000 to 200.000 watts in power. 10 transmitters on the Pacific Coast, 26 transmitters in the Middle West and on the East Coast. Government owned and controlled shortwave relay operations at Honolulu (KRHO), Manila and Munich. Other relays through arrangements with Domestic Broadcasting of other countries, such as Austria, B. B. C. in Great Britain, France, Germany, Italy, China and Korea. Programme schedules of "The Voice of the U. S. A." are prepared in New York and mailed upon request to interested groups or individuals abroad. They can also be obtained through the local U. S. Information Office of every country.

All applications for monthly programmes, for further information on current programmes, radio reception reports and comments, should be sent direct to the "Voice of the U. S. A."

The International Broadcasting Division is responsible for the planning, execution and content of programmes. Programmes are written, produced and broadcast from studios in New York City. By contract the National Broadcasting Company (NBC) and the Columbia Broadcasting System (CBS) produce programmes, which are integrated with the output of the Department of State to Europe, Latin America and the Far East.

LEADING PERSONALITIES: The International Broadcasting Division (IBD) is a division of the Office of Information and Educational Exchange (OIE) of the Department of State, and is under the jurisdiction of the Assistant Secretary of State for Public Affairs, George V. Allen. Officials of the O. I. E. and I. B. D. directly responsible for the operation are: William T. Stone, Director of O. I. E. — Leland Barrows, Deputy Director, O. I. E.

I. B. D. Officials are: Charles W. Thaper, Acting Chief. — Forney A. Rankin, Associate Chief, in charge of high

frequency conference affairs and plans. — *Musio Delgado*, Acting Associate Chief, in charge of the Washington office. — *Robert Ross*, Program Branch. — *John Doud*, Chief Facilities Branch.

Addresses of the main companies and organisations, are as follows:

The Voice of the United States of America, Office of Information and Educational Exchange International Broadcasting Division, U. S. Department of State, 224 West 57 Street, New York 19.

Washington headquarters of I. B. D. are at 18th and Pennsylvania Avenue. N. W.

United Nations Network, Radio Liaison Office, United Nations, Lake Success, New York.

The Associated Broadcasting Inc., Mark Hopkins Hotel, San Francisco.

Columbia Broadcasting System Inc., 485 Madison Avenue, New York 22.

Crosley Corporation, 149 West 9th Street, Cincinnati.

General Electric Company, 1 River Road, Schenectady, New York.

National Broadcasting Corporation Inc., 30 Rockefeller Plaza, New York 20.

Westinghouse Radio Station Inc., 275 Tremont Street, Boston 16.

The World Wide Broadcasting Foundation, 133 Commonwealth Avenue, Boston 16.

Armed Forces Radio Service, A. P. O. 500, San Francisco.

STATIONS

U. S. A.s shortwave stations are divided into two main groups: East Coast stations, whose call-letters begin with W, and West Coast stations whose call-letters begin with K. In some cases the other letters of the call-sign denote the ownership of transmitter. There are one or more frequencies for each call-sign, and each company may change the frequencies used for the different call-letters.

The U. S. government, through the Department of State, leases the transmitters from the private operators. CBS and NBC, under contract with the State Department, programmes most of the service. The State Department has retained the direct programming of the languages of Eastern Europe — and China and Korea in the Far East. (Only WRUL and WRUW, operated by the *World Wide Broadcasting Foundation*, are partially programmed independent of the government operation.

DAILY PROGRAMMES

International shortwave programs from the United States fall into three main categories: news, editorial and information which includes news analysis, editorial comment and all basically informational programs such as round table discussions, documentaries, etc., music and entertainment.

DAILY PROGRAMMES TO EUROPE

The broadcasts are divided into four networks. Below is first given a survey showing the distribution of the broadcasts into network and language, and then, in the case of each individual network, a survey of the frequencies on which the broadcasts of the respective networks can be heard and programme details of the broadcasts in question.

Network A	Network B	Network C	Network D

17800 kc/s 16.85 m KRHO from 07.30-08.45

Daily Programmes:

The United Nations broadcast daily Monday through
Saturday, except as noted, programmes of news, com-
ment, interviews, and background talks, on the work of

the organization and of the Specialized Agencies. The
broadcasts, mostly by shortwave, are made possible
through the cooperation of the U. S. Department of
State, the International Service of the Canadian Broad-
casting Corporation, and the World Wide Broadcasting
Foundation. American listeners are sometimes able to
pick up the shortwave transmissions when reception is
good. Over UN facilities may be heard both the uncen-
sored dispatches of the accredited radio correspondents
from a wide variety of radio services or stations speaking
in their own languages to their own people, and also the
official UN broadcasts outlined above. The relays of
important UN meetings set out below have been followed
avidly by listeners in many of the countries most directly
concerned by UN discussions, and they have also proved
a great help as a "tipoff" service to press and radio
monitors.

TO EUROPE:

14.30-14.45 Talks by members of delegations and ac-
credited radio correspondents — CKNC 16.84 m
CKCX 19.75 m

ARAKO RADIO

A. KAARILL

**MODTAGERE
LØSDELE
en gros**

RAADHUSSTRÆDE 7 . KØBENHAVN K C. 7012, BYEN 1516

Standard-Frekvens Udsendelse.

I Bellsville i U. S. A. (39,02,20 N — 76,51,30 W) ligger "Bureau of Standards", der Døgnet rundt sender Standard Frekvenser til Hjælp for Frekvensberegninger, Justering af Modtagerens Skala, etc. Tillige sendes Tidssignaler, og to Gange i hver Time Døgnet rundt Signaler, der fortæller om der i de kommende 24 Timer vil antages at indtræffe Jonosfære-Forstyrrelser eller om Forholdene formentlig vil forblive normale. Stationens Kaldesignal er **WWV**. De anvendte Tider og Frekvenser samt den udsendte Tones Frekvens er følgende:

2.5 mc 7.p.m.-9.a.m.	1 kW 440 cycles	} konstant Tone
5.0 mc 7.p.m.-7.a.m.	10 kW 440 cycles	
5.0 mc 7.a.m.-p.m.7.	10 kW 440 og 4,000 cycles	
10.0 mc Døgnet rundt	10 kW 440 og 4,000 cycles	
15.0 mc Døgnet rundt	10 kW 440 og 4,000 cycles	
20.0 mc Døgnet rundt	0,1 kW 440 og 4,000 cycles	
25.0 mc Døgnet rundt	0,1 kW 440 og 4,000 cycles	
30.0 mc Døgnet rundt	0,1 kW 440 cycles	
35.0 mc Døgnet rundt	0,1 kW 440 cycles	

Udsendelserne ledsages af Sekundprikker undtagen det 59de Sekund. En konstant Tone lyder og gør det let at identificere Stationen. Hver halve og hele Time gives Kaldesignalet **WWV** i Morsetegn og pr. Phone. Nøjagtigheden for alle Frekvenser er indenfor

$\frac{1}{50,000,000}$ og Sekundprikkernes Nøjagtighed ligger indenfor $\frac{1}{0,000,001}$ Sekund. I hver Times 20de og 50de Minut sendes 6 Gange Bogstavet **W**, hvis der indenfor de kommende 24 Timer ventes Jonosfæreforstyrrelser, eller 8 Gange Bogstavet **N**, hvis Forholdene ventes at blive normale. Det er en stor Hjælp, der her gives Radiolytterne paa korte Bølger, og man kan som Regel altid fange Stationen, hvis man vælger den rigtige Frekvens efter det Tidspunkt man lytter. Prøv — og se hvor meget Deres Modtager viser forkert i Indstilling! I Dagtimerne er 10.0 mc sikkert den fordelagtigste at lytte ind paa, men prøv hvor mange De kan høre af dem alle 8, ved at vælge det rigtige Tidspunkt og hvis Deres Modtager dækker disse Omraader. Aften- og Nattimerne giver sikkert størst Udbytte. 5 mc høres godt i de tidlige Morgen-timer.

POPULÆR RADIO

Kr. 1.00

Udkommer den 1. i hver
Maaned

Enhver Lytter, der ønsker

- at** følge med i Radio- og Grammofonteknikens Udvikling
- at** lære sin Radiomodtager og Grammofon at kende
- at** finde Fejl i Modtageren og selv reparere denne
- at** blive holdt a jour med Lytteforholdene paa de korte Bølger gennem Rapporter og Bølgelængdetabeller

**bør hver Maaned købe Danmarks største
og bedste Radio-Tidsskrift**

Abonnement pr. Kvartal Kr. 3.00.
Bestilles gennem alle Landpostbude og Postkontorer Landet over
ell. gennem Bladeksp. Pilestræde 32.
